

OUR MISSION

Groundwork Hudson Valley transforms urban neighborhoods through partnerships that inspire young leaders and support local economic development.

THE SCIENCE BARGE

Our talented teachers bring a STEM curriculum into Yonkers Public Schools and at the Science Barge, our floating classroom and urban farm.

GREEN TEAM

Over 50 Yonkers Public Schools teens are hired for year-round conservation work and training preparing them for further education and future careers.

COMMUNITY RESILIENCE

Residents in environmentally vulnerable neighborhoods are engaged to improve urban environments, fostering long-term renewal and enhancing the well-being of their communities.
